PROJECTS

Web Design Project : HomeWork

- Developed 'HomeWork,' a home service booking website, using HTML, CSS, and JavaScript. The site allows users to book various services such as plumbing, electrical work, painting, renovation, and cleaning. Designed an intuitive, user-friendly interface to streamline the booking process and enhance user experience.
- Github Link : <https://github.com/gokul2687/HomeWork-project.git>

Web Design Project : myTunes

- Designed 'MyTunes,' a multimedia website using HTML and CSS, for listening to music and watching movies. Created an engaging, user-friendly interface with a focus on aesthetics and usability. Ensured responsive design for seamless access across devices, providing an enjoyable and intuitive user experience.
- Github Link : <https://github.com/gokul2687/mytunes-website.git>

Web Application Project : Movie Library

- Developed a Movie Library application with an admin interface using Core Java, SQL, and J2EE. I have developed The admin part allows for storing, managing, and deleting movies from the library. Implemented a robust backend to ensure efficient data handling and streamlined movie management.
